Methodological practical framework:

IMPORTANT NOTE: one should be aware that a pertinent choice of variable will be necessary for the perceptions of # your own lifestyle culture # other countries lifestyles in the following workshops (next stages of the project).

At the next meeting each partner should present the work method followed and the outcomes: use Power Point presentations to
 a) describe the group, the activity, the method used.
 b) show how the workshop activity could be adapted.

A common structure for the project compendium will be proposed at the next meeting.

All other partners can use (adapt) and experiment the proposed practice in its on local context and compare the results.
