

It would be a good idea to...

- Collaborate and socialise with the other learners

- Every learner can tell their interests and hobbies so they can friendly discuss about them.

• Divide the class in small groups of different ages and learning levels.

- **Each group should have a temporary leader for each objective to achieve.**

The leader must be the best in that field and motivate the others with practical devices.

- Activities such as sports, role-playing and karaoke will also bring students together.

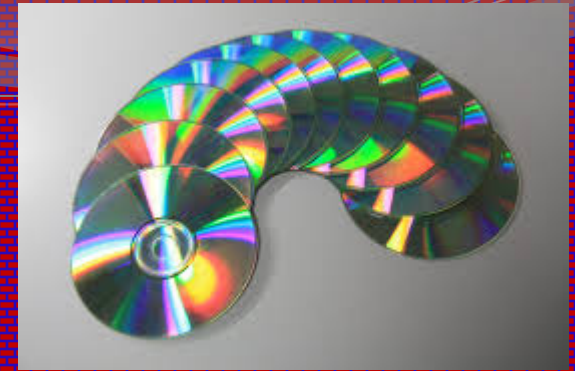

•Older people can help the young in some subjects and the young can help the older in other subjects.

NECESSARY CONDITIONS:

- Common interests
- Common objectives
- Use of pictures, CDs, DVDs and newspaper articles
- Use of sector-based labs and outside activities

POSSIBLE OBSTACLES!

- **Difficulty to change the members and the leaders of the groups.**
- **Different ages, different interests ,different cultures, different learning levels.**

THANK YOU FOR YOUR
ATTENTION!
